WAUSEON VOTES DRY.

There certainly can be no contention that there was not a representative vote of the Village of Wauseon polled last Friday at the local option election.

The total vote polled was 747; of this vote 425 were to prohibit the sale of intoxicating liquors and 322 were not to prohibit such sale; a majority of 103, dry vote by precincts was as follows: East Precinct, Dry 128, Wet, 115, dry majority 13; West Precinct, Dry 125, Wet 109, dry majority 14; South Precinct, Dry 174, Wet 98, dry majority 76.

Swanton held a Local Option Election on the same day as Wauseon and voted dry by a majority of 40; there was nearly a full vote polled in Swanton. This was true also in Delta where the election was held on Wednesday, January 14th, and where a large majority was recorded for the dry side. These three elections in Fulton county seem to indicate that the general sentiment in this county is to prohibit the sale of intoxicating liquors for the general welfare of the community and this after an experience both with and without the saloons.

DO YOU OWN A MANURE SPREADER?

We believe that every farmer should own a Manure Spreader of some make and that any spreader will make him a good investment. The question is "What Spreader shall I buy?" The FEARLESS SPREADER answers this question for the man who does not own a Spreader. The Fearless is made of good material through out and has less chain and gears and more hard oil cups than any other Spreader. Its Circular Beater enables it to better work than other Machines and it will spread 8 ft. wide from a 38 inch box without the use of troublesome and complicated wide spread attachments. Another advantage of the FEARLESS is that it tracks with the ordinary wagon and it is coupled shorter than any other Spreader. A catalogue of this machine will be sent on request and we hope that every farmer who does not own a spreader will send for one of these catalogues. REMEMBER we will deliver any farm machinery that you may need to your nearest railroad station and pay the freight and we are in position to sell you as cheap or cheaper than any other Implement firm in the county.

According to announcement made by President W. W. Boyd, the Western College for Women has just been placed on the approved list of colleges, by the Ohio State Commissioner of Education. This ranks it with about 25 other leading colleges of the state, which have been similarly recognized. Graduates from these colleges, who take a prescribed course, receive a certificate to teach without further examination, and after teaching the prescribed length of time, those who hold degrees from such college may receive life certificates throughout the state, without further examination. Following this recognition of the State of Ohio, word has been received from Texas, that degrees of Western College are now received there as qualifications for teachers' life certificates. Miss Pearl Ruhlley of Archbold is a graduate of this College and Miss Fanny Kenyon is a member of the present senior class.
